

Vocational Training and Technological Center – VTTC

Work Placements in Paphos, Cyprus

LLP - Leonardo da Vinci Mobility Projects in the tranquil area of Paphos

VTTC is a Cypriot organization that is located in the historical capital of the island close to the tourist area of Kato Paphos. As you can see at www.pafos2017.com, Paphos was recently awarded the status of **European Capital of Culture for 2017**. The Center (VTTC) is an allied constellation of training institutions that offer vocational training in various subject areas. It operates as a network of associates where specialized training, but also consultation services are offered. The organization offers training courses in different subjects such as business, information technology, culinary arts, hospitality, marketing and foreign languages. In all our courses and particularly in business and marketing we pay particular attention to the pivotal role of new technologies and the competitive advantage it offers. Moreover, we offer consulting services and career orientation programs for Cypriots, EU citizens and people from third countries, and we facilitate participation in EU projects such as [LdV Mobilities](#). We strongly believe that vocational education and training enhances employability, assists learning, while providing skills and knowledge for work. The effectiveness of our operations requires the close cooperation with several local businesses in various fields and cooperation with other European partners. Therefore, VTTC is in the perfect position to offer work placement for our European partners in qualified businesses and also comfortable living in the safe and tranquil area of Paphos. The city host one of the two International airports; the other international airport is located in Larnaca, just an hour and a half drive. <http://www.cyprusairports.com.cy/>

Our institution is specialized in offering support to EU projects of local partners and in serving as a host organisation for European projects. Through our work, we have managed to build a reputation of outstanding quality in facilitating work placements and project administration. VTTC can support LdV projects as a host or intermediary partner in EU projects of [Leonardo IVT/ PLM/VETPRO Mobility Projects](#). Our institution invites your organisation to participate in European Mobility projects of Leonardo da Vinci Projects with placements in Paphos Cyprus. We have the capacity to host a large number of students, workers and teachers in our facilities and to make their Work Placements a stimulating and an interesting experience. We can assure our partners that we offer very affordable prices, excellent accommodation facilities and catering services.

Our organization can support your Mobility project through a comprehensive support plan which includes:

Providing airport transfer
 Informational package and Cultural/Social activities
 Informal induction and orientation sessions
 Language courses (Greek, English, Spanish, French, Romanian Russian etc)
 Accommodation in prime locations at affordable prices
 Supporting work placement
 Mediating between hosting companies and workers
 Local Transportation of people in placement
 Telephone hotline 7 days a week
