

Our organization, Fundación Canaria Universitaria de Las Palmas, is submitting a new application for the call of 2013 proposals on Lifelong Learning Programme – Leonardo da Vinci, which is funded and sponsored by the European Commission. As you know, this programme is aimed to allow graduates to enjoy a traineeship of 26 weeks (6 months) in European enterprises.

We are looking for partners interested in participating with us. We are a non-profit making organization and Leonardo da Vinci is a non-profit making programme. As you may know from previous projects, your role as a **host organization** is to welcome those graduates you find suitable for having a **traineeship** in your enterprise. You are not required to pay our grant holders for their traineeship. However, a little financial help for them would be welcome.

In case you are interested in welcoming our graduates for a traineeship in your enterprise (host organization) could you please download the attached files (Letter of Intent 2013 and Partner Data Sheet), **fill, sign, stamp and send them both, by post before the 31 January and by email before the 28th January.**
